

How you can get involved

It will be of huge benefit to Tullamore if we all work together to have our estates, shop fronts, home gardens and public areas looking well and have great colour and bloom wherever you look . We are fortunate that so many shop owners and local residents take great pride in their building and green areas. All of you here tonight are the leaders in the community for trying your best to make sure that Tullamore looks well throughout the year. We need your help and motivation to encourage others to help with the litter awareness in the town. You don't need to have green fingers to heighten litter awareness so if there are ways we can all work together to have Tullamore litter free this summer it would be a great success for all of us.
