4. Legislative Context

In order to assess whether or not the proposed works constitute exempted development, regard must be had to the following items of legislation:

(a) Statutory Provisions

- i. **Section 2 (1) Planning and Development Act 2000, as amended, states as follows:**

"house" means a building or part of a building which is being or has been occupied as a dwelling or was provided for use as a dwelling but has not been occupied, and where appropriate, includes a building which was designed for use as 2 or more dwellings or a flat, an apartment or other dwelling within such a building;

"works" includes any act or operation of construction, excavation, demolition, extension, alteration, repair or renewal and, in relation to a protected structure or proposed protected structure, includes any act or operation involving the application or removal of plaster, paint, wallpaper, tiles or other material to or from the surfaces of the interior or exterior of a structure.

- ii. **Section 3 (1) Planning and Development Act 2000, as amended, defines development:**

"development" means, except where the context otherwise requires, the carrying out of any works on, in, over or under land or the making of any material change in the use of any structures or other land.

- iii. **Section 4 (1) Planning and Development Act 2000 as amended.**

Furthermore, in relation to the proposed development, which includes renovations of the existing dwelling, Section 4 (1) (a) – (l) sets out what is exempted development for the purposes of this Act including:

*4(1)(h) development consisting of the carrying out of works for the maintenance, improvement or other alteration of any structure, **being works which affect only the interior of the structure** and which do not materially affect the external appearance of the structure so as to render the appearance inconsistent with the character of the structure or neighbouring structures.*

The subject mainly internal renovation and upgrade to heating system is considered to be in accordance with section 4 (1)(h) outlined above. The proposed renovations would not materially affect the appearance of the existing structure.

6. Evaluation

Question: Whether the proposed works to the existing dwelling are development and, if so, are they exempted development?

In considering the proposed works against the definitions of 'development' and 'works' as provided in the Act, it is the view of the Planning Authority that the proposed works are deemed as development as it includes alterations to the existing dwelling.

Question: Is this proposal considered as Exempted Development?

With regard to the proposed works which are described in the submitted documents, the Planning Authority are satisfied that the proposed works would not result in a material alteration to the appearance of the dwelling and would not be inconsistent with the character of area.

It is the opinion of the Planning Authority that the proposed works meet the criteria of exempt development under statutory provisions.

7. Screening

A screening exercise for an appropriate assessment has been carried out and it is concluded that the development is unlikely to have significant effects on any European sites. Please see attached report under Appendix A.

It is considered that the proposed development does not constitute a development listed in Schedule 5 of the *Planning and Development Regulations 2001 as amended*. Furthermore, it is not a sub-threshold development. Accordingly, an EIAR is not required.

8. Appropriate Assessment

A screening exercise for an appropriate assessment has been carried out and it has been concluded that the existing development is unlikely to have significant effects on any European sites.

Please see attached report under Appendix A.
