The Government has agreed that Level 5 as set out in the Plan for Living with COVID-19 will apply nationally until January 31st 2021. The Government has clearly stated that there is an absolute need to minimise the level of mobility and congregation of people in order to reduce all opportunities for transmission of the virus.

Consequently, and in line with current public health guidance, the **Offices of Offaly County Council are closed for walk-in services to support this reduced mobility policy.**

Public access cannot be facilitated during LEVEL 5 restrictions.

Furthermore, **Offaly County Council Planning services will be available by email, online post** and only where absolutely necessary and in exceptional circumstances by appointment.

In person telephone services are currently restricted due to Covid 19 risk reduction measures, please use the voicemail service using 057 9357414 and a member of the Planning Team will return your call as soon as possible.

Alternatively please use the email address planning@offalycoco.ie for current communications to Offaly County Council Planning Department services.
