On the proposal of Cllr. L. Quinn, seconded by Cllr. T. McCormack, the members agreed to suspend standing orders to include Cllr. K. Smollen's motion in the Housing presentation discussion as outlined:

Motion 1

"That Offaly County Council urgently allocates 3 houses from the Council's own housing stock or provides funding for the rent of 3 houses from an Approved Housing Body - one in Tullamore, one in Birr and one in Edenderry for use as a refuge for the victims and their families of domestic violence in those areas of Offaly and that each of the houses be suitably renovated for use by both female and male victims of domestic violence".

In response Ms. M. Cleary informed the members that the Sophia Clonamore Hotel project to provide 17 professionally supported beds for homeless accommodation is proceeding to tender. She advised the members that a meeting had taken place with Tusla, the state agency responsible for providing specialist domestic violence services and they have published a review for the Provision of Accommodation for Victims of Domestic Violence in the last week. She informed the members that the meeting last week was held to discuss delivery of services in Offaly and the Tusla report will be examined by Housing Services. Ms. M. Cleary further advised that Housing Services have worked with Offaly Domestic Violence Support and will continue to assist victims of domestic violence in getting the supports they need. Ms. S. Kennedy agreed that a whole series of actions to transition to a long term solution will be required.

Cllr. K. Smollen joined with the members in stressing the importance of providing the services for women and men as a matter of urgency and he acknowledged that Offaly County Council is committed to working with the relevant agencies to achieve a solution.

Ms. M. Cleary provided the members with a presentation to outline the delivery of housing services in Offaly. She updated the members on Homeless Services, Traveller Accommodation and Estate Management. She brought the members attention to the National Housing Strategy for Disabled People 2022 – 2027. She provided the members with the progress on Local Authority housing stock, Acquisitions 2021, Compulsory Purchase Orders, Pre-Letting/Voids and Housing Loans and Grants. She noted that the Rebuilding Ireland Home Loan has been renamed to the Local Authority Home Loan. She highlighted the increased funding provided in 2021 for Housing Grants resulted in the delivery of 138 private housing grants and 30 social housing disabled persons grants.

Ms. M. Cleary outlined the projections and targets for the Housing for All Delivery Action Plan 2022 – 2026 to deliver 463 social houses. She advised the members that expressions of interest for land will be advertised in the coming weeks. She provided the members with detailed information on the provision of turnkey housing and construction in the pipeline including Approved Housing Bodies construction. She welcomed the increased allocation to €4.2m for the Retrofit Programme and she updated the members on the status of the programme and the type of works that are provided as per the consultant's recommendation. She thanked the members for their support and drew their attention to the relevant housing email addresses provided for the various services provided.

The members thanked Ms. Cleary for her comprehensive report and they welcomed the progress that has been made to date, the projected targets and they acknowledged the difficulties in providing social housing and the commitment and hard work of staff. They also welcomed the collaboration with Tusla and Offaly Domestic Violence Support. A number of queries were raised in relation to acquisition of houses in small towns and villages, the issues in the private rental market, the need for single storey dwellings and the timelines for Departmental approval on the various stages of projects.

The members also raised concerns on the amount of vacant derelict houses in Offaly towns and villages, the growing housing list, lack of security of tenure for private rental tenants, lack of land available for Local Authority development, traveller accommodation and the delays in re-letting and voids. They voiced their concerns about the rising cost of fuel, retrofitting for private householders and the increasing costs of construction, along with the lack of contractors and skilled labour. Cllr. C. Claffey sought an update on the allocation of houses at Woodfield, Birr and Cllr. K. Smollen raised concerns about the future of the tenants in Lockhouse View.

The members sought clarity on the Tenant Purchase Scheme, Housing Design Team, Compulsory Purchase Orders progress, homeloan thresholds, provision of Part 5s, affordable housing and the provision and costs associated with the Retrofit Programme.

In response Ms. S. Kennedy agreed to write to Department in relation to acquisition of housing in small towns and villages. She noted the members concerns in regard to the issues in private rental property. She noted the member's comments in relation to the need for accessible accommodation for people with disabilities and the elderly and she stressed housing services commitment to providing suitable accommodation for all. She advised the members that in many of the voids or re-lets a decision was made to include them as part of the retrofit programme, which can delay the process but it is a good opportunity to bring these properties up to a very high standard. She also pointed out that the Retrofit programme is a very thorough process, incorporating proper planning, procurement and design.

She advised the members that works are on –going for Disabled Persons Grants and any increase in funding for 2022 has yet to be confirmed. She agreed that dereliction is a huge issue nationally and a series of programmes are in place, in collaboration with the planning section. She cautioned that works in the area of dereliction are still at an early stage but will result in a more detailed data base and further resources will be required in this area. She agreed to provide the members with a briefing on progress in regard to dereliction in the near future. She confirmed that some homeless clients are provided accommodation outside the county and she welcomed the provision of Clonamore House due to come on stream to provide homeless accommodation in Tullamore for 17 people.

Ms. S. Kennedy advised the members that the housing section are engaging with tenants in Lockhouse View to assist them in accessing accommodation. She confirmed the Tenant Purchase scheme is still in operation but housing stock and value for money has to be considered for each application. She confirmed that recruitment for the design team has been referred to Human Resources, the Traveller

Accommodation plan is progressing and a contractor has been appointed to carry out inspections of private rental properties. She advised the members that there is currently no approval for an affordable housing scheme, but she will engage with the Department on this issue.

In response to the members concerns about land acquisition Mr. J. Cunningham advised that expressions of interest for land will be county wide and he cautioned that discussions in this area can be a long process and land with planning permission is preferable. He confirmed that discussions with different land owners are on-going in Edenderry. He advised that the Just Transition Retrofit Programme is governed by the rules of procurement but local economies are stimulated by the work and the contractor may employ local labour. In regard to the Part 5 he informed the members that developers are now required to provide 20% of their development for Part 5, these are fully funded by department and through discussions with the developer a price can be negotiated that has then to be approved by the Department.

Mr. J. Cunningham advised the members that retrofit liability costs are high and heat pumps need to be installed in highly insulated houses. He noted that to avoid disruption most houses do not require underfloor heating, that 10% of housing stock will be retrofitted when the scheme is finished and retrofitted housing provides more affordable heating.

Ms. M. Cleary advised the members that the threshold for homeloans has not changed but there are two changes, the removal of 175msq requirement and the fresh start principle. She confirmed that a number of houses in Woodfield, Birr have been allocated and this process is on-going.

Ms. A. Delaney thanked the members for their support and the staff for their work and she looked forward to delivery of the Housing Services Programme.

Cllr. E. Dooley joined with the members in complimenting the team for their comprehensive submission and expressed the importance of getting support from MEPs and TDs. They sought clarification on the decision to appoint the East Midlands Regional Assembly as the Managing Authority for the Just Transition Fund Ireland and match funding requirements.

In response Mr. S. Duclot advised the members that Minister Eamon Ryan appointed the East and Midland Regional Assembly to manage the Just Transition Fund and Offaly County Council has a good working relationship with them. He noted that match funding requirements has not yet been decided.

Ms. A. Dillon agreed there would be pressure on the East and Midland Regional Assembly to claim €40million funding by end 2023, however she advised that Offaly County Council submission includes projects that will be ready to go and is committed to engaging with the East and Midland Region Assembly as an implementing partner with the member's support. She further advised that the submission includes elements for positive discrimination in regard to fuel poverty as the midlands region is the most dependent on solid fuel.
